TOGREE.

Nairobi,

Dear Sir/Madam,

RE: APPLICATION FOR A SOFTWARE DEVELOPMENT POSITION INTERNSHIP.

I am Veronicah Wambui, an entry-level software developer. I am writing to express my interest in the position of Software Development Intern at TOGREE.

I have been impressed by how your company markets all the elements necessary to get the full functionality of GPS fleet management in the desired environment in real-time. I admire how your wireless communication system product ensures the safety of the vehicle and families also controls, reduces costs for connected and monitored businesses. I appreciate the work you do to serve your customers better, I will be greatly honored to be part of the TOGREE team.

Currently, I am working on a fitness app that will help women work out at home. I am in the research phase, conducting a pilot study to better understand the challenges women in Kenya face in accessing the right form of workouts at home. I believe this app will help more women to be more physically active.

Kindly find my CV attached for your perusal. Thank you for your time and consideration.

Looking forward to hearing from you.

Sincerely,

Veronicah Wambui.
